### Miles to go

- The Economy is better poised but still needs deft steering, mindful reforms.

#### About CEA prediction -

Last week Chief Economic Advisor (CEA) Anantha Nageshwaran converged To Industry leaders that Indian economy could grow 6.5%-7%, even if no further reforms were not taken.

The growth can last a longer period of 7 to 15 years as China did between 1979 and 2008. He told that India's growth can continue without "running into overheating problem".

Overheating problem – It can economy sees 3 to 4 years continuous growth, Overheating can be absented. Overheating means slowing down economy of 3-4 years continuous growth.

#### Reason for this optimism being

Strong momentum, better macroeconomic fundamentals with inflation easing, cleaner balance sheet of banks also corporate balance sheet cleaner, GST reforms, digitalization and formalization being the growth driver.

- What further caution govt should be taken :-

Returning to prepandemic trajectory is not enough. Private investment still not at Pan. High import tariff, complex 'angle-tax' on inbound investments are other reasons. Govt. must desist from practices that are not good for Pvt. Investment.
