UNDERSTANDING THE WAGNER MUTINY

What led Russia into an unprecedented internal security crisis? Why has the chief of Wagner private military company involved in this ?

How did Putin deal with this ?

Has it shown Putin's loosening authority?

The story so far :-

Yevgeny Prigozhin, the chief of Russia's Wagner private military company, staged a short-lived mutiny against country's defence establishment on June 24.

Prigozhin demand was that defence chief Sergei Shoigu be removed. This created situation of civil war. Mr. Prigozhin called of rebellion, but he left several unaddressed issues that can haunt Kremlin.

WAGNER MUTINY

⇒ **What happened on June 24?**

On 23 June Night Mr. Prigozhin released a video, accusing defence leadership of ordering strikes on Wagner and killing many of its forces. Hours later, he released another video claiming that his forces have captured RUSIOV-On-DON, Russia's southern military district headquarters.

Mr. Prigozhin said Wagner would start a march to justice" towards Moscow.

The convoy started moving to main highway connecting ROSTON to Moscow wagner forces shot down six Russian helicopter and a command centre plane, killing 13 servicemen. Roads and bridges were damaged when Russian troops tried to stop wagner.

On Saturday night.

It was one of the bloodiest battle of 21st century.

Wagner though captured BAKHMUT last around 20,000 men.

Prigozhin said “five times more guys than had been supposed to have died” he accused MoD leadership for this loss of men. Later Mr. Prigozhin said that his men come under fire while retreating from BAKHMUT.

June 10 : - Defence minister issued an order asking all armed volunteers to sign contracts with MoD before July 1 . Mr. Prigozhin Protested there events led to 24th June muting.

⇒ **What was Putins response**

In a TV, address Russian President said the armed muting as “betrayal” some 200 km from Moscow, Mr. prigozhin released another video telling “it’s over” just before this Belarus. PM lukashenko announced that a truce has been reached.

⇒ **Why did prigozhin launch the mutiny?**

The difference between the ministry of Defence of Russia and prigozhin appeared first in February when he accused the ministry to supply only limited arms and ammunition to wagner.

Battle of BAKHMUT

And a “step in back” he said he had ordered his security services to crush the rebellion.

But it seems Putin was still in dilemma.

Wagner has proved very effective for Russia so president chose a face saving exit over a bloody civil war.

He turned to Belorussia Lukashenko who negotiated with prigozhim and a deal was reached.

What was the deal ?

Criminal charges were slapped over prigozhin, once he started muting. These chrges had to be dropped prigozhin will be exiled in Belaras wagner forces who didn't participate in muting were allowed to sign MoD ciontract.

What's Next

The muting exposed Mr. Putins weakening authority such situation can arise in future also as few can look to prigozhin's muting to start their own.

Russia's poor battle field performance, internal feud, corruption allegation remained unaddressed.

If the war drags on further without any concrete result Mr. Prigozhim could face more challenges with this

Sholedar and Bakhmut – Two main cities captured by Russia in 2023. Wagner played major role in capturing there two.
