02/07/2023

## THE HINDU 02-07-2023 National

### ➔ **Water mission may miss 2024 target the govt “har ghar jal” initiative to provide all rural households with portable tap water connection till 2024, may complete only 75% by April 2024.**

About “har ghar jal” mission

It comes under ministry of jal shakti it was launched in 2019. Its aim is to connect every village with tap water.

Total outlay for this projects 3.6 lakh crore for five years.

It at time of its launch only 16% rural household had tap water facility.

19.5 crore families were targeted under this.

About progress of the mission

It was hit by pandemic, a dent of quality manpower at that time. It got sped after pandemic but was hit by Russia-Ukraine war, due to shortages of steel and cement, which is critical for this mission.

So far only 63% of household have benefitted “till now which means 63% of have tap water connections.

The number of certified villages (villages that have 100% tap water connection) are also down.

Out of 1,60,000 villages only 58,357 has got certified.

Till now eight states and UTs has been reported 100’s connected Haryana, Punjab and Gujrat are among it

### ➔ **With new date to fix boundaries census unlikely before polls.**

The deadline to freeze administrative boundaries of districts, tahsils and town has been extended to December 31. To train official for census will take 3 months. It is only after there that census can start.

But the process for 2024 election will start by then. So it is unlikely that census will be conducted before polls.

Census is conducted every 10 years but 2021 census was postponed indefinitely due to pandemic.

The next census will be first digital census. It will be uneducated in two phases

(1) The house listing and housing census.

(2) population enumeration phase.

These both will typically take 11 month combinedly.

It will also be the first census where citizens will get opportunity to self enumerate.

Registrar General of India (RGI) is given task to conduct census.
